TO: Residents of the City of Milwaukee

DATE: October 16, 2020

SUBJECT: Project I.D. 2365-07-00
West Grange Ave Bridge
Over Canadian Pacific Railroad
Milwaukee County

Dear Property Owner:

The City of Milwaukee Department of Public Works (DPW) and the Wisconsin Department of Transportation (WisDOT) are inviting you to view exhibits providing information on the proposed rehabilitation project for the West Grange Avenue Bridge over the Canadian Pacific Railroad. This project is currently scheduled for construction in 2022.

This project consists of rehabilitating the West Grange Ave Bridge and resurfacing the roadway approaches. The purpose of the proposed project is to improve the deteriorating condition of the bridge deck and the approach roadways. The existing bridge deck will be removed and constructed in two stages to keep Grange Ave open for 2 way traffic during construction. There will be two short-term full closures when the bridge decks are poured.

We want you to help us identify issues and concerns, and provide input on improvements throughout the design phase. Exhibits and comment forms will be posted online at the following link: Milwaukee.gov/dpw/grangebridge. Due to the COVID-19 pandemic, we appreciate your understanding as we provide exhibits in this format.

Please feel free to complete the enclosed comment form and send back to us by October 31, 2020. You may contact Ms. Theresa Kubista (Project Manager), by phone at (414) 286-2463 or email at tkubis@milwaukee.gov to provide comments, ask questions or request more information about this project.

Sincerely,

Samir Amin, P.E.
City Engineer
